

CEN-CENSE Conference, September 25, 2009, Paris

Recasting the EPBD
Current developments and the way forward to achieve an
increased use of EPBD standards
current activities

Bjarne W. Olesen
bwo@byg.dtu.dk

International Centre for Indoor Environment and Energy
Technical University of Denmark

Scope

- Share information and combine efforts to bring the standards to application:
- Inform on current developments relating to the EPBD recasting (common methodology)
- How a set of common standards would support:
 - Correct implementation of the EPBD (ie. Transparency)
 - Industries (comparable technical assessments approaches)
 - Member States (ie Efficiency)
- Providing successful examples of the use of the EPBD standards
 - By Member States
 - By software

Program

- **10:30 Welcome**
- Opening remarks (CEN, EU)
- **moderator Prof. Bjarne W. Olesen**
- **10:40 IEE-CENSE project**
- Brief introduction of the CENSE project, its major objectives and its current activities
- **Dick van Dijk**
- **10:50 Recasting the EPBD**
- Current developments and the way forward to achieve an increased use of EPBD standards
- **Martin Elsberger (DG-TREN)**
- **11:10 Questions, Discussion**
- **11:20 CEN Standards on EPBD**
- Overview
- **Jaap Hogeling**
- **11:40 Preliminary findings from the IEE-CENSE project**
- CENSE project: preliminary results, the lessons so far. A prelude to the presentations and discussions in the afternoon, which are focused on specific topics
- **Dick van Dijk**
- **12:00 Discussion**
- **12:30- 13:30 Lunch**

Program

- **13:30 Member state building regulation (Italy)**
- Demonstration of how the EPBD standards can be used in to their full extent
- **Laurent Socal**
- **13:45 Discussion**
- **14:00 Link between product data and the set of CEN-EPBD standards**
- Role of the EuP Directive with illustrative examples (building and/or system components) presented by a CENSE partner and industry representative
- **Martin Searle**
- **14:20 Discussion**
- **14:30 Software tools**
- The role of the standards for software development and vice versa. Report on current discussions
- **Johann Zirngibl (CSTB)**
- **14:45 Discussion**
- **15:00 Coffee break**

Program

- **15:15 General Discussion**
- With representatives from industries, building professionals, standard writers, consumers, Member States
- **HVAC-Engineers: Ioan Silviu Dobosi**
- **Thermal insulation Randall Bowie**
- **Lighting industry: Dieter Schornick**
- **Heating-Industry: Martin Searle**
- **European Environmental Citizens' Org. for Standardisation :Bruno Peuportier**
- **16:00 Conclusion**
- What remains to be done to realise the full potential of the standards
- How to combine efforts to bring the standards to application
- **Dick van Dijk and Johann Zirngibl**
- **16:20 Closing remarks**
- **Chair Bjarne W. Olesen**
- 16:30 Refreshments
