

General Discussion

**CENSE workshop “Recasting the EPBD”
25th of September / Paris**

Dr Martin Searle

Recast EPBD

- An opportunity for change.
- Support the EU Parliament in amendments to proposals
 - Particularly - Common methodology between all Member States
- Ensure full note is taken of Article 8 of the recast Directive
- Clarity between EuP & EPBD

Review CEN Standards

- To support the recast EPBD changes will have to be made.
- Focus on fewer calculation options
- If more than one methodology is essential then clarify use
- Data input requirements consistent with reliability of data acquisition
- Calculation procedures consistent with accuracy of data available
